

## HotelChain at a Glance

### Concept - the space of conscious living

In an increasingly mobile and digital world, never before has there been a greater need for authentic human connection. Apartments in the city can make us feel alone and isolated. It is time for a new real estate paradigm.

Hotelchain is more than a hotel. It's a safe harbour from where we can explore, rest and grow together. We meet people as people, not professions, accomplishments or titles. We strive to help each other become more conscious and true to ourselves. Our members are global citizens with a drive to challenge themselves and the world. We see Hotelchain as a catalyst for personal growth and social change.

When you are in an environment where you get accepted for who you are and you feel safe to express your inner self, then you drop your mask and start focusing on your true purpose. That's empowerment. This is the core of what we are building here at Hotelchain.

Buying an apartment to be locked to one place is no longer a great option for the mobile generation. We see the whole world as our home and want to be around people that inspire us to live a more balanced and conscious life.

On the professional side we also take an active interest in each other's work. We share connections, ideas, skills and also initiate collaborations. Co-working zone of Hotelchain intends to grow many common projects.

**Our mission is to provide physical space and framework, empowering self-managed communities of global citizens to create safe harbours to live, work and grow. We plan to build a global Hotel chain, providing our members with a feeling of belonging and home across the world.**

## **About HotelChain Token**

HotelChain Token is a profitable investment in the growing industry of hospitality. Our mission is to provide physical space and framework, empowering self-managed communities of global citizens to create safe harbours to live, work and grow.

We plan to build a global Hotel chain, providing our members with a feeling of belonging and home across the world.

## **Investing & Guarantees**

Investors participate in the project by purchasing HotelChain Tokens, which are a blockchain token with underlying asset. It makes HotelChain Token stand out from other projects utilizing crypto tokens.

- HotelChain Token is a liquid trading asset and is not just membership eligibility but business in and on itself
- We are committed to complete transparency at every stage of the investment cycle, from project to development
- Investors receive LifeTime membership and get free stay in any Hotel of the chain
- Token holders can rent or sell their tokens
- Hotelchain token is supported by increasing demand of hotel service

## **Timeline**

30 <sup>th</sup> October 2017	HTL Pre-sale
30 <sup>th</sup> November 2017	HTL Crowdfunding
May 2018	Moscow Site Launch
FY 2019	4 Sites launch

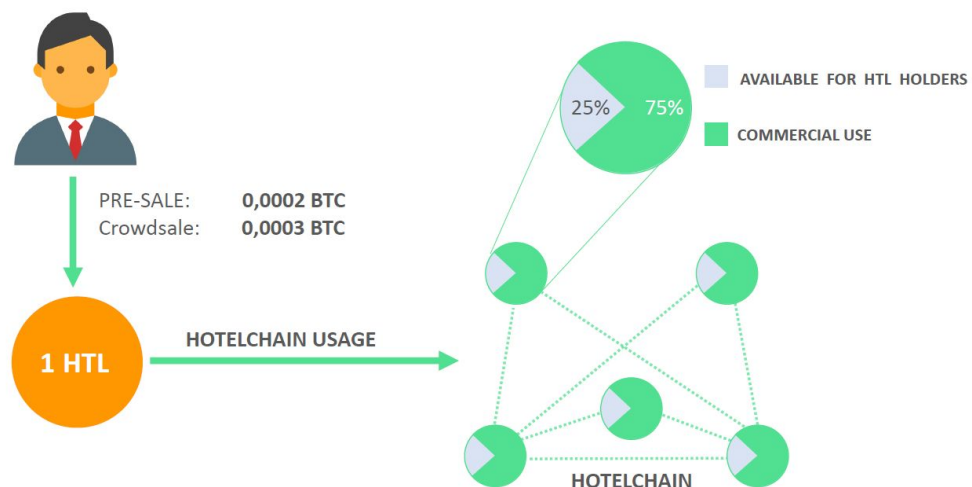

## HTL Distribution

We decided to use blockchain technology because we consider it to be safe and transparent for investors. It is also a very convenient way to conduct crowdsale (sometimes called as ICO). We've decided to become participants in this new movement.

During the crowdfunding process HTL tokens will be available for a purchase for a fixed price. The total amount of HTL tokens will be 16,500,000 - 91% of which will be available during crowdfunding (15,000,000 HTL).

We plan to distribute HotelChain Tokens (HTL) with a price of 1 HTL = 0.0003 BitCoin. Early stage investors can buy 1 HTL for 0.0002 Bitcoin with 33% discount. Crowdfunded amount will be invested in Hotel development. Obtaining 1 HTL gives you a right to become a HotelChain Member. Member of HotelChain community will receive lifetime access to facilities. Other investors will receive benefits for holding token fraction.

Of the remaining 9%, 4.5% will be attributable to advisors and bounty program contributors and 4.5% of tokens will be divided between Hotelchain team members and advisors.

## **MEMBERSHIP**

10,000 HTL token is an essentially membership certificate which give rights and privileges to its owner of free lifetime access to any Hotelchain globally. All token holders can lease HTL to any person through exchange or mobile application.

Our members are global citizens with a drive to challenge themselves and the world. We see Hotelchain as a catalyst for personal growth and social change. Our Community travelers live alongside other likeminded young professionals keen to connect, collaborate and socialize.

### **Premium Service**

Enjoy a hassle-free living experience that lets you focus on the things that really matter. All-inclusive billing, concierge service and room cleaning as standard.

Own an amazing place to live with a community that make it better. Enjoy a lifestyle designed to offer complete convenience. Live somewhere you'll be excited to call home.

### **Events and Activities**

Regular professional, networking and social events will be organised, exclusively for members. We also bring amazing partners to our spaces to teach, meet and party. Join an actively managed and deeply collaborative community. Get more done and have more fun, working in a network of people with ideas.

Dedicated community managers provide a regular program of entertainment, talks, community activities and events to experience with your new friends and project partners.
